Six natural pet toy lines. One supplier, one shipment.

Coffee wood chews, Gorilla coffee wood, loofah toys, hemp toys, coco coir toys and pet beds, all exported by WINVN INT from Vietnam. Build one mixed order instead of managing six suppliers.

From 50 pcs per SKU | Mix sizes inside a coffee wood SKU | Exporting to 40+ countries | Registered in Vietnam since 2019

Enterprise Registration No. 0316014351 · Production in Dak Lak and Gia Lai provinces

Coffee wood chews

Cut from mature Robusta trees (20+ years) cleared at the end of their productive life in the Central Highlands. Moisture below 14% at the core before vacuum packing.

- 6 sizes, XS to XXL · MOQ 50 pcs per SKU, sizes mixed freely
- Vacuum-sealed poly bags, 1, 2 or 3 pieces per bag
- SGS heavy-metal test to ASTM F963-23, report on request

Size	Length	Diameter	Weight per piece
XS	10–11 cm	1.5–2 cm	23–30 g
S	13–14 cm	2–2.5 cm	35–45 g
M	17–18 cm	2.5–3.5 cm	90–110 g
L	18–19 cm	3.5–4.5 cm	120–180 g
XL	20–21 cm	4.5–5.5 cm	230–400 g
XXL	22–23 cm	5.5–8 cm	325–600 g

Coffee wood is a natural material: every piece has its own shape and grain, so length, diameter and weight move within the ranges above.

Gorilla coffee wood

Short, thick blocks of Robusta coffee wood, for buyers who want a heavier piece.

- 4 sizes, S to XL · 8–16 cm long
- About 155 g to 1.1 kg per piece
- MOQ 50 pcs per SKU · exact ranges per size confirmed with your quote

Loofah toys

Cut from dried loofah gourd, matured 6 to 9 months, sometimes longer, before processing.

- Shapes include Mouse, Teddy Bear, Fish, Cat, Kitty, Bone and Duck
- 11.5–15 cm long depending on the shape · MOQ 50 pcs per SKU
- Light: adds range to an order without much extra weight

Hemp toys

Hemp fibre is hard and strong, much tougher than coco coir. Hemp balls are a growing trend in Europe.

Hemp ball	Diameter
S	4–5 cm
S-M	5.5–6.5 cm
M	6–7 cm
L	8–9 cm

40–140 g across the range, with or without rope (25–32 cm). Rope toys: 3-knot and 2-knot (40 or 25 cm, 14 mm), tug (40 cm, 10 mm). MOQ 50 pcs per SKU.

Coco coir toys

Coconut fibre rope, machine-twisted, then hand-knotted. No glue. Soft and fraying: sell it as an occasional toy that helps clean between the teeth, not as a long-lasting chew.

Coir chew (CCR01): S 20 cm · M 23 cm · L 30 cm. Coir ball (CCRB01): S 4–6 cm · M 6–8 cm · L 8–10 cm. MOQ 50 pcs per SKU.

Pet beds

Elevated wooden-frame beds, woven seagrass, water hyacinth and rattan beds, and cat caves. MOQ 100 pcs per SKU. Tell us your market and the sizes you sell, and we send current models with sizes and photos.

Packing and private label

Three ways your goods can arrive

- **Plain:** coffee wood and shaped loofah vacuum-sealed, 1, 2 or 3 pcs per bag; coco coir and hemp balls in plain poly bags
- **Your brand:** your tag inside the bag, laser engraving, kraft boxes
- **FBA-ready:** FNSKU labels, suffocation warning on every bag, 5-ply cartons with FBA box labels, each under 22.5 kg

Private label options

- Laser engraving of your logo on coffee wood
- Kraft or eco cardboard tags, standard 5 × 9 cm
- Kraft boxes, sets of 1, 2 or 3, or your own packaging
- No design yet? We design your tag, label or box from your logo. Design is a paid service, quoted with your order.
- Same minimum as plain goods

How a mixed order works

The minimum is counted per product, not per size and not per order. Example: 50 coffee wood chews split across four sizes meet the minimum for one product. Add 50 hemp balls of one size and 50 loofah toys of one shape, and you test three lines in one order.

Samples. 3 free samples per customer, across the whole sample order. You pay the shipping, which is credited back on a qualifying production order. Samples beyond the first 3, and fully custom samples, are charged.

Production time, plain goods (shipping not included)

Quantity	Production time
50–200 pcs	8–10 days
200–1,000 pcs	10–15 days
1,000–5,000 pcs	25–27 days
One 20 ft container	30–45 days

Branded packing: lead time confirmed after we see your design.

Shipping

- A few cartons: by air, often door to door
- Pallets: shared sea container (LCL)
- Larger orders: your own 20 ft or 40 ft container (FCL)
- Terms: FOB, CIF or DAP

Documents

- With every shipment: commercial invoice, packing list, bill of lading or air waybill
- When your market requires it: certificate of origin, phytosanitary and fumigation certificates
- Testing: coffee wood SGS heavy-metal test to ASTM F963-23. Hemp, coco coir and loofah: no lab test yet. We do not hold FSC, BSCI or ISO certification.
